STAT

Dear Jim,

I was quite sorry to hear of your accident February 15th, and of the resultant injuries to you and to your wife Joan. The roads these days are dangerous enough without the added peril of falling snow.

This week I am told that your wife is home again and that your progress has been such that you will be able to join her within ten days.

Continue to rest and mend. I am looking forward to being told that you are back in harness.

STAT

Arthur C. Lundahl
